

Kosovo

Illustrative Human Capital Indicators

This country profile presents a snapshot of illustrative indicators to guide discussions during the Annual Meetings while the set of more strategic indicators are under development. It is intended to be a conversation starter on where a country is on various aspects of human capital development and, as such, it includes indicators from various sectors. It is to be noted that not all the indicators included here are relevant for each country. Information contained here should be complemented with other more context-specific indicators.

In Kosovo the productivity as a future worker of a child born today is **56 percent** as much as it could be. The country ranks **80 out of 157** in the global HCI. For more information on human capital outcomes and the HCI, please see the country two-pager on www.worldbank.org/en/publication/human-capital.

ILLUSTRATIVE OUTCOME AND OUTPUT INDICATORS

- **Women, Business and the Law Index.** This index measures gender equality in the law (how the economic decisions women make are affected by the law), with a larger value showing higher gender equality. In Kosovo, the value is **92** out of 100. This is higher than both the average for its region (90) and the average for its income group (69).
- **Adolescent Fertility Rate.** In Kosovo, data on the adolescent fertility rate do not exist. The average for the country's region is 16 births per 1,000 women ages 15-19 and for its income group is 16.
- **Contraceptive Prevalence.** In Kosovo, data on contraceptive methods do not exist. In the country's region, **63 percent** of women ages 15-49 uses some form of contraceptive method, and in the country's income group, **63 percent** uses it.
- **Social Protection Coverage.** In Kosovo, **35 percent** of the poorest quintile is covered by social safety nets. This is lower than both the average for its region (50) and the average for its income group (38).
- **Open Defecation.** In Kosovo, data on the percentage of the population that practices open defecation do not exist. The average for the country's region is 0 percent and for its income group is 0 percent.
- **Hygiene.** In Kosovo, data on the percentage of the population that has basic hygiene services (soap and water) do not exist. The average for the country's region is 91 percent and for its income group is 53 percent.
- **Source of Drinking Water.** In Kosovo, data on the percentage of the population that has at least basic source of drinking water do not exist. The average for the country's region is 98 percent and for its income group is 83 percent.
- **Cooking Fuel.** In Kosovo, data on the percentage of the population that primarily uses clean cooking fuels do not exist. The average for the country's region is 94 percent and for its income group is 47 percent.
- **Access to Electricity.** In Kosovo, **100 percent** of the population has access to electricity. This is similar to the average for its region (100) but higher than the average for its income group (82).
- **Road Traffic Deaths.** In Kosovo, data on mortality due to road traffic injury do not exist. The average number of road traffic deaths for the country's region is 8 people per 100,000 and for its income group is 19 people per 100,000.

1. Key Indicators on Human Capital

- Large circle=Kosovo ; small circles=other countries.
 - Vertical lines separate terciles of the distribution.
 - Colors indicate the terciles of the distribution across countries.
