

# the Federated States of Micronesia

## Commitment to Human Capital - Scorecard

This scorecard presents a snapshot of the country's commitment to the human capital agenda and presents information on how the World Bank Group is supporting the government in the social sectors.

In the Federated States of Micronesia there are not enough data to calculate the productivity as a future worker of a child born today. The HCI has three components: survival to age 5, health, and education. For more information on human capital outcomes and the HCI, please see the country two-pager on [www.worldbank.org/humancapitalproject](http://www.worldbank.org/humancapitalproject)

- **Social Protection Spending.** In the Federated States of Micronesia, data on social protection spending do not exist. The average for the country's region is 7.9 percent and for its income group is 9.3 percent.

### KEY OUTCOME AND OUTPUT INDICATORS TO MONITOR

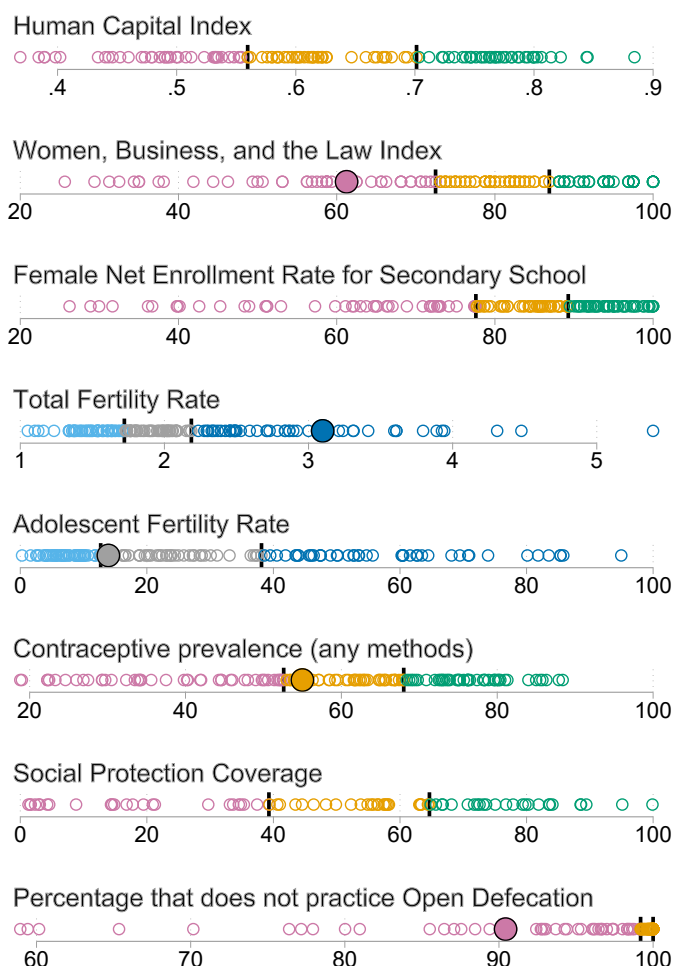

- **Women, Business and the Law Index.** This index measures gender inequality in the law and identifies barriers to women's economic participation, and a larger value shows higher gender equity. In the Federated States of Micronesia, the value is **61** out of 100. This is lower than both the average for its region (72) and the average for its income group (69).
- **Net Enrolment Rate in Secondary School.** In the Federated States of Micronesia, data on secondary net enrolment rates for girls do not exist. In its region **75** percent of girls of secondary-school age are enrolled in secondary school. The corresponding value for its income group is **75** percent.
- **Total Fertility Rate.** In the Federated States of Micronesia, the total fertility rate is **3.1**. This is higher than the average for its region (2.4) but lower than the average for its income group (3.1).
- **Adolescent Fertility Rate.** In the Federated States of Micronesia, there are **14** births per 1,000 women ages 15-19. This is lower than both the average for its region (26) and the average for its income group (55).
- **Contraceptive Prevalence.** In the Federated States of Micronesia, **55 percent** of women ages 15-49 uses some form of contraceptive method. This is higher than both the average for its region (52) and the average for its income group (49).
- **Social Protection Coverage** In the Federated States of Micronesia, data on the percentage of the population that is covered by social safety nets do not exist. The average for the country's region is 33 percent and for its income group is 33 percent.
- **Open Defecation.** In the Federated States of Micronesia, **10 percent** of the population practices open defecation. This is higher than the average for its region (8) but lower than the average for its income group (13).

### DOMESTIC RESOURCE USE AND MOBILIZATION

the Federated States of Micronesia is not part of a network of countries committed to the Human Capital agenda.

- **Health Spending.** The Federated States of Micronesia spends **5.7 percent** of its government budget on health. This is lower than both the regional average (10) and the average for its income group (7.7).
- **Education Spending.** The Federated States of Micronesia spends **22.3 percent** of its government budget on education. This is higher than both the regional average (14.8) and the average for its income group (15.7).

### Key Indicators on Human Capital

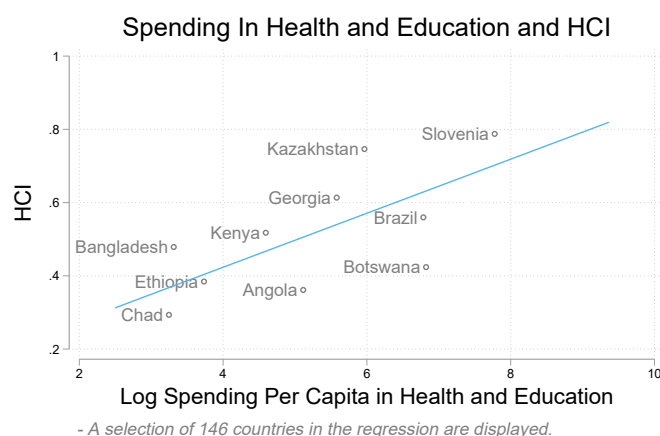

- Large circle=Federated States of Micronesia ; small circles=other countries.  
 - Vertical lines separate terciles of the distribution.  
 - Pink/light blue=1st tercile; orange/gray=2nd tercile; green/blue=3rd tercile

## Government Expenditure in the Social Sect

- **Efficiency of Spending.** Given the lack of data, it is not possible to predict if the HCI in the Federated States of Micronesia is higher or lower than what would be predicted for its level of per capita spending.

- **Domestic Resource Mobilization.** The tax revenue in the Federated States of Micronesia is **11.3 percent** of GDP. This is lower than both the regional average (16.9) and the average for its income group (15.6).

## Domestic Resource Mobilization and GDP

## OTHER RELEVANT INDICATORS

- **Building Human Capital.** The Country Policy and Institutional Assessment rating for building human resources in the Federated States of Micronesia is **3** (1 is low and 6 is high). This is lower than both the regional average (3.3) and the average for its income group (3.6). This indicator assesses the national policies and public and private sector service delivery that affect access to and quality of health and education services.
- **Identification** In the Federated States of Micronesia, **31.8 percent** of the population does not have proof of identity. This is higher than both the regional average (13.4) and the average for its income group (20.3).
- **Statistical Data on Human Capital** In the Federated States of Micronesia, data on stunting rate and Harmonized Learning Outcomes are unavailable after year 2000.

## HOW IS THE WORLD BANK SUPPORTING THE EFFORT?

The following table summarizes the World Bank's investments in Human Development for Ethiopia, including measures of volume, performance, and other relevant indicators.

**World Bank Investments in HD**

Indicator	HD	Edu	HNP	SPJ
<b>HD Portfolio</b>				
USD (million)	.	.	.	.
Percentage of total	.	.	.	.
Diff. with perc. for regional average	.	.	.	.
Diff. with perc. for income group avg	.	.	.	.
<b>HD FY 20 Lending Program</b>				
USD (million)	.	.	.	.
Percentage of total	.	.	.	.
Diff. with perc. for regional average	.	.	.	.
Diff. with perc. for income group avg	.	.	.	.
<b>HD Performance</b>				
Average Development Outcome (DO)	.	.	.	.
Difference with DO for region	.	.	.	.
Difference with DO for income group	.	.	.	.
Perc. Satisfactory DO	.	.	.	.
Average Implementation Progress (IP)	.	.	.	.
Difference with IP for region	.	.	.	.
Difference with IP for income group	.	.	.	.
Perc. Satisfactory IP	.	.	.	.
Disbursement ratio (DR)	.	.	.	.
Difference with DR for region	.	.	.	.
Difference with DR for income group	.	.	.	.
<b>Other indicators</b>				
Average project size (PS) (USD mill.)	.	.	.	.
Difference with PS for region	.	.	.	.
Difference with PS for income group	.	.	.	.
Perc. of portfolio that is co-TTL'd (CTT)	.	.	.	.
Diff. with CTT for region (perc. points)	.	.	.	.
Diff. with CTT income group (perc. points)	.	.	.	.

Note: a) **Pink** indicates that the value is within the first tercile of the distribution for all the countries. **Orange** indicates that the value is within the second tercile. **Green** indicates that it is within the third tercile. b) FY20 lending program includes only projects rated A, B and unrated. c) DO and IP are on a scale of 1 to 5 where 1 is Unsatisfactory and 5 is Highly Satisfactory. d) Data as of July 15, 2019.

This scorecard is intended to be a conversation starter on where a country is on various aspects of human capital development and the state of the World Bank's support in the social sectors. The choice of indicators is, to a large extent, driven by what is most relevant for the two Regions with the lowest HCI scores (Africa and South Asia). As such, not all the indicators included here are relevant for each country. The scorecard should be complemented with other more context specific indicators.

The sources of data for the different indicators include: the Human Capital Project, the World Development Indicators, and the World Bank's internal system to monitor investments.
