

Eritrea

Commitment to Human Capital - Scorecard

This scorecard presents a snapshot of the country's commitment to the human capital agenda and the World Bank Group's support for the social sectors.

INDICATORS IN THE AFRICA HUMAN CAPITAL PLAN

- **Human Capital Index.** In Eritrea there are not enough data to calculate the productivity as a future worker of a child born today. The HCI has three components: survival to age 5, health, and education. For more information on human capital outcomes and the HCI, please see the country two-pager on www.worldbank.org/humancapitalproject
- **Adolescent Fertility Rate.** In Eritrea, there are **52 births** per 1,000 women ages 15-19. This is lower than the Africa Human Capital Target for 2023 (83).
- **Social Protection Coverage.** In Eritrea, data on the percentage of the population that is covered by social safety nets do not exist. The Africa Human Capital target for 2023 is 30 percent.
- **Open Defecation.** In Eritrea, **76 percent** of the population practices open defecation. This is higher than the Africa Human Capital Target for 2023 (15).

INDICATORS ON WOMEN'S EMPOWERMENT

- **Total Fertility Rate.** In Eritrea, the total fertility rate is **4.1 births** per woman. This is lower than both the average for its region (4.5) and the average for its income group (4.7).
- **Contraceptive Prevalence.** In Eritrea, **8 percent** of women ages 15-49 use some form of contraceptive method. This is lower than both the average for its region (31) and the average for its income group (28).
- **Women, Business and the Law Index.** This index measures gender equality in the law (how the economic decisions women make are affected by the law), with a larger value showing higher gender equality. In Eritrea, the value is **72** out of 100. This is higher than both the average for its region (70) and the average for its income group (68).
- **Net Enrolment Rate in Secondary School.** In Eritrea, **25 percent** of girls of secondary-school age are enrolled in secondary school. This is lower than both the average for its region (35) and the average for its income group (29).

DOMESTIC RESOURCE USE AND MOBILIZATION

- **Health Spending.** Eritrea spends **2.9 percent** of its government budget on health. This is lower than both the regional average (7.6) and the average for its income group (6.8).
- **Education Spending.** Eritrea spends **5.2 percent** of its government budget on education. This is lower than both the regional average (15.3) and the average for its income group (15.5).
- **Social Protection Spending.** In Eritrea, data on social protection spending do not exist. The average for the country's region is 9.9 percent and for its income group is 10.8 percent.

1. Human Capital Context

Indicators in the Africa Human Capital Plan

Indicators on Women's Empowerment

- Large circle=Eritrea ; small circles=other countries.
 - Vertical lines refer to regional targets.
 - Pink/light blue=1st tercile; orange/gray=2nd tercile; green/blue=3rd tercile

2. Government Expenditure on the Social Sectors

- **Efficiency of Spending.** Given the lack of data, it is not possible to predict if the HCI in Eritrea is higher or lower than what would be predicted for its level of per capita government spending.

- **Domestic Resource Mobilization.** In Eritrea, data on domestic resource mobilization do not exist. The average for the country's region is 16.1 percent and for its income group is 14.3 percent.

OTHER RELEVANT INDICATORS

- **Human Capital Project.** Eritrea is not part of a network of countries committed to the Human Capital agenda.
- **Building Human Capital.** The Country Policy and Institutional Assessment rating for building human resources in Eritrea is **3** (1 is low and 6 is high). This is lower than both the regional average (3.5) and the average for its income group (3.5). This indicator assesses the national policies and public and private sector service delivery that affect access to and quality of health and education services.
- **Identification.** In Eritrea, **70.2 percent** of the population does not have proof of identity. This is higher than both the regional average (33.8) and the average for its income group (34.6).
- **Statistical Data on Human Capital.** In Eritrea, data on stunting rate and Harmonized Learning Outcomes are unavailable after year 2000.

HOW IS THE WORLD BANK SUPPORTING THE EFFORT?

The following table summarizes the World Bank's investments in Human Development for Eritrea, including measures of volume, performance, and other relevant indicators.

World Bank Investments in HD				
Indicator	HD	Edu	HNP	SPJ
HD Portfolio				
USD (million)
% of total
Diff. from regional average %
Diff. from income group avg %
HD FY 20 Lending Program				
USD (million)
% of total
Diff. from regional average %
Diff. from income group avg %
HD Performance				
Average Development Outcome
Diff. from regional average %
Diff. from income group avg %
% Satisfactory DO
Average Implementation Progress
Diff. from regional average %
Diff. from income group avg %
% Satisfactory IP
Disbursement ratio
Diff. from regional average %
Diff. from income group avg %
Other indicators				
Average project size (USD mill.)
Diff. from regional average %
Diff. from income group avg %
% of portfolio that is co-TTL'd
Diff. from regional average %
Diff. from income group avg %

Note: a) **Pink** indicates that the value is within the first tercile of the distribution for all the countries. **Orange** indicates that the value is within the second tercile. **Green** indicates that it is within the third tercile. b) FY20 lending program includes only projects rated A and B. c) DO and IP are on a scale of 1 to 6 where 1 is Highly Unsatisfactory and 6 is Highly Satisfactory. d) Data as of September 5, 2019.

- **Human Capital Policy Operations.** Currently, the pipeline for Eritrea does not include any Development Policy Operation with a Human Capital-related component or prior action.
- **Women's Empowerment Project.** Currently, the pipeline for Eritrea does not have an active project focused on women empowerment or on sexual and reproductive health.

This scorecard is intended to be a conversation starter on where a country is on various aspects of human capital development and the state of the World Bank's support in the social sectors. The list of indicators presented here is not exhaustive and should be complemented with more context specific variables. Most of the indicators are related to the Africa Human Capital Plan.

The sources of data for the different indicators include: the Human Capital Project, the World Development Indicators, and the World Bank's internal system to monitor investments.

For more information, please contact the Africa Human Capital Project team: AFR_HCP_Team@worldbankgroup.org
