

The Republic of Yemen

Commitment to Human Capital - Scorecard

This scorecard presents a snapshot of the country's commitment to the human capital agenda and presents information on how the World Bank Group is supporting the government in the social sectors.

In the Republic of Yemen the productivity as a future worker of a child born today is **37 percent** as much as it could be. The HCI has three components: survival to age 5, health, and education. For more information on human capital outcomes and the HCI, please see the country two-pager on www.worldbank.org/humancapitalproject

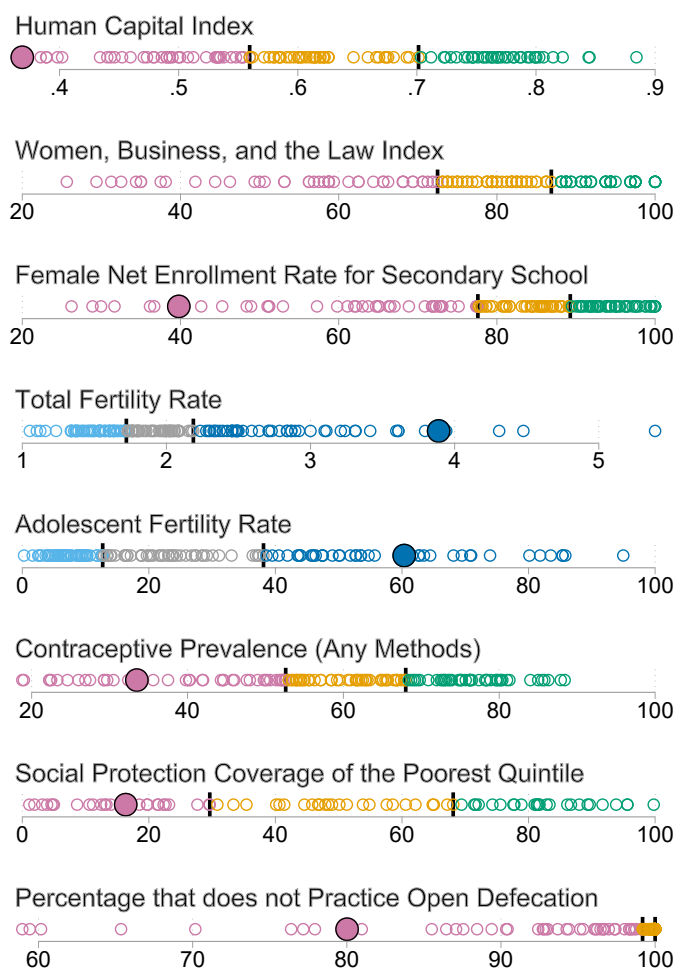

KEY OUTCOME AND OUTPUT INDICATORS TO MONITOR

- **Women, Business and the Law Index.** In the Republic of Yemen, data on the women, business and the law index do not exist. The average for the country's region is 49 and the average for its income group is 49.
- **Net Enrolment Rate in Secondary School.** In the Republic of Yemen, **40 percent** of girls of secondary-school age are enrolled in secondary school. This is lower than both the average for its region (69) and the average for its income group (58).
- **Total Fertility Rate.** In the Republic of Yemen, the total fertility rate is **3.9** births per woman. This is higher than both the average for its region (2.6) and the average for its income group (3.1).
- **Adolescent Fertility Rate.** In the Republic of Yemen, there are **60 births** per 1,000 women ages 15-19. This is higher than both the average for its region (23) and the average for its income group (55).
- **Contraceptive Prevalence.** In the Republic of Yemen, **34 percent** of women ages 15-49 uses some form of contraceptive method. This is lower than both the average for its region (51) and the average for its income group (49).
- **Social Protection Coverage.** In the Republic of Yemen, **21 percent** of the poorest quintile is covered by social safety nets. This is lower than both the average for its region (44) and the average for its income group (35).
- **Open Defecation.** In the Republic of Yemen, **20 percent** of the population practices open defecation. This is higher than both the average for its region (3) and the average for its income group (13).

DOMESTIC RESOURCE USE AND MOBILIZATION

- **Health Spending.** the Republic of Yemen spends **0 percent** of its government budget on health. This is lower than both the regional average (8.3) and the average for its income group (7.7).
- **Education Spending.** the Republic of Yemen spends **12.5 percent** of its government budget on education. This is lower than both the regional average (13.9) and the average for its income group (15.7).
- **Social Protection Spending.** In the Republic of Yemen, data on social protection spending do not exist. The average for the country's region is 5.2 percent and for its income group is 9.3 percent.

1. Key Indicators on Human Capital

- Large circle=Republic of Yemen ; small circles=other countries.
 - Vertical lines separate terciles of the distribution.
 - Pink/light blue=1st tercile; orange/gray=2nd tercile; green/blue=3rd tercile

2. Government Expenditure on the Social Sectors

- **Efficiency of Spending.** Given the lack of data, it is not possible to predict if the HCI in the Republic of Yemen is higher or lower than what would be predicted for its level of per capita government spending.

3. Spending on Health and Education and HCI

- **Domestic Resource Mobilization.** In the Republic of Yemen, data on domestic resource mobilization do not exist. The average for the country's region is 13.7 percent and for its income group is 15.6 percent.

4. Domestic Resource Mobilization

- **Statistical Data on Human Capital.** In the Republic of Yemen, the latest available data point on stunting rate is from 2013. Similarly, the latest available data point on Harmonized Learning Outcomes is from 2011.

HOW IS THE WORLD BANK SUPPORTING THE EFFORT?

The following table summarizes the World Bank's investments in Human Development for the Republic of Yemen, including measures of volume, performance, and other relevant indicators.

World Bank Investments in HD				
Indicator	HD	Edu	HNP	SPJ
HD Portfolio				
USD (million)	1,523	0	683	840
% of total	87	0	39	48
Diff. from regional average %	+59	-5	+29	+35
Diff. from income group avg %	+70	-5	+33	+42
HD FY 20 Lending Program				
USD (million)
% of total
Diff. from regional average %
Diff. from income group avg %
HD Performance				
Average Development Outcome	6	.	5	6
Diff. from regional average %	+1.05	.	+0.71	+1.50
Diff. from income group avg %	+1.04	.	+0.55	+1.45
% Satisfactory DO	100	.	100	100
Average Implementation Progress	5	.	5	5
Diff. from regional average %	+0.82	.	+0.93	+0.75
Diff. from income group avg %	+0.73	.	+0.68	+0.59
% Satisfactory IP	100	.	100	100
Disbursement ratio	0	.	0	0
Diff. from regional average %	-6	.	-1	-6
Diff. from income group avg %	-4	.	-4	-5
Other indicators				
Average project size (USD mill.)	762	0	683	840
Diff. from regional average %	+521	-149	+509	+595
Diff. from income group avg %	+622	-91	+570	+712
% of portfolio that is co-TTLd	45	.	100	0
Diff. from regional average %	+18	.	+78	-22
Diff. from income group avg %	+20	.	+79	-26

Note: a) **Pink** indicates that the value is within the first tercile of the distribution for all the countries. **Orange** indicates that the value is within the second tercile. **Green** indicates that it is within the third tercile. b) FY20 lending program includes only projects rated A and B. c) DO and IP are on a scale of 1 to 6 where 1 is Highly Unsatisfactory and 6 is Highly Satisfactory. d) Data as of September 5, 2019.

OTHER RELEVANT INDICATORS

- **Human Capital Project.** the Republic of Yemen is not part of a network of countries committed to the Human Capital agenda.
- **Building Human Capital.** The Country Policy and Institutional Assessment rating for building human resources in the Republic of Yemen is **2** (1 is low and 6 is high). This is lower than both the regional average (2.8) and the average for its income group (3.6). This indicator assesses the national policies and public and private sector service delivery that affect access to and quality of health and education services.
- **Identification.** In the Republic of Yemen, **50.4 percent** of the population does not have proof of identity. This is higher than both the regional average (20.4) and the average for its income group (20.3).

This scorecard is intended to be a conversation starter on where a country is on various aspects of human capital development and the state of the World Bank's support in the social sectors. The choice of indicators is, to a large extent, driven by what is most relevant for the two regions with the lowest HCI scores (Sub-Saharan Africa and South Asia). As such, not all the indicators included here are relevant for each country. The scorecard should be complemented with other more context specific indicators.

The sources of data for the different indicators include: the Human Capital Project, the World Development Indicators, and the World Bank's internal system to monitor investments.
