

# the Central African Republic

## Commitment to Human Capital - Scorecard

This scorecard presents a snapshot of the country's commitment to the human capital agenda and the World Bank Group's support for the social sectors.

- **Social Protection Spending.** The Central African Republic spends **36.3 percent** of its government budget on social protection. This is higher than both the regional average (9.9) and the average for its income group (10.8).

### INDICATORS ON THE AFRICA HUMAN CAPITAL PLAN

- **Human Capital Index.** In the Central African Republic there are not enough data to calculate the productivity as a future worker of a child born today. The HCI has three components: survival to age 5, health, and education. For more information on human capital outcomes and the HCI, please see the country two-pager on [www.worldbank.org/humancapitalproject](http://www.worldbank.org/humancapitalproject)
- **Adolescent Fertility Rate.** In the Central African Republic, there are **104 births** per 1,000 women ages 15-19. This is higher than the Africa Human Capital Target for 2023 (83).
- **Social Protection Coverage.** In the Central African Republic, data on the percentage of the population that is covered by social safety nets do not exist. The average for the country's region is 23 percent and for its income group is 23 percent.
- **Open Defecation.** In the Central African Republic, **24 percent** of the population practices open defecation. This is higher than the Africa Human Capital Target for 2023 (15).

### INDICATORS ON WOMEN'S EMPOWERMENT

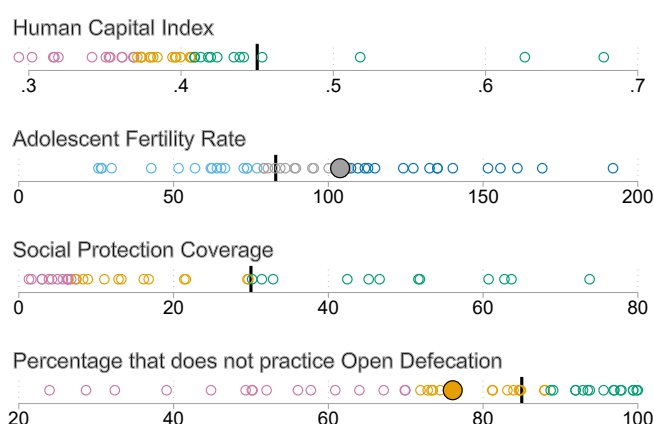

- **Total Fertility Rate.** In the Central African Republic, the total fertility rate is **4.8**. This is higher than both the average for its region (4.5) and the average for its income group (4.7).
- **Contraceptive Prevalence.** In the Central African Republic, **15 percent** of women ages 15-49 uses some form of contraceptive method. This is lower than both the average for its region (31) and the average for its income group (28).
- **Women, Business and the Law Index.** This index measures gender inequality in the law and identifies barriers to women's economic participation, and a larger value shows higher gender equity. In the Central African Republic, the value is **71** out of 100. This is higher than both the average for its region (70) and the average for its income group (68).
- **Net Enrolment Rate in Secondary School.** In the Central African Republic, **10 percent** of girls of secondary-school age are enrolled in secondary school. This is lower than both the average for its region (35) and the average for its income group (29).

### DOMESTIC RESOURCE USE AND MOBILIZATION

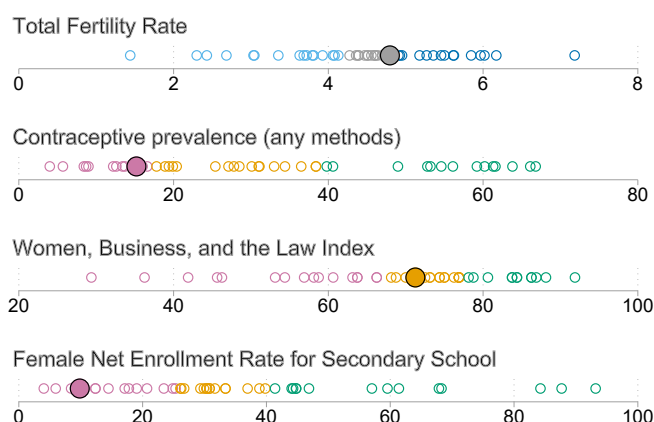

- **Health Spending.** The Central African Republic spends **5.1 percent** of its government budget on health. This is lower than both the regional average (7.6) and the average for its income group (6.8).
- **Education Spending.** The Central African Republic spends **7.8 percent** of its government budget on education. This is lower than both the regional average (15.3) and the average for its income group (15.5).

## Human Capital Context

### Indicators in the Africa Human Capital Plan

### Indicators on Women's Empowerment

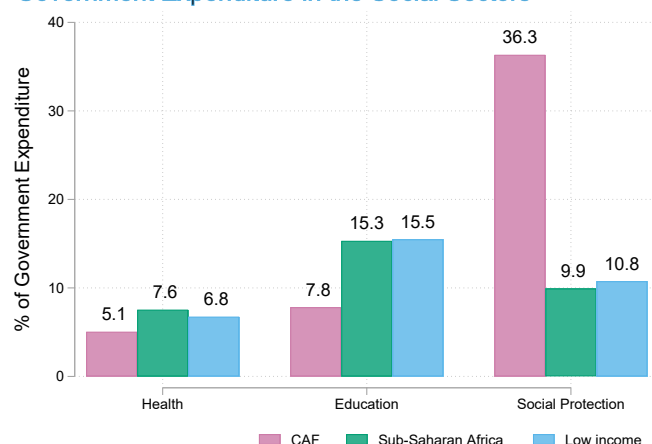

- Large circle=Central African Republic ; small circles=other countries.  
- Vertical lines refer to regional targets.

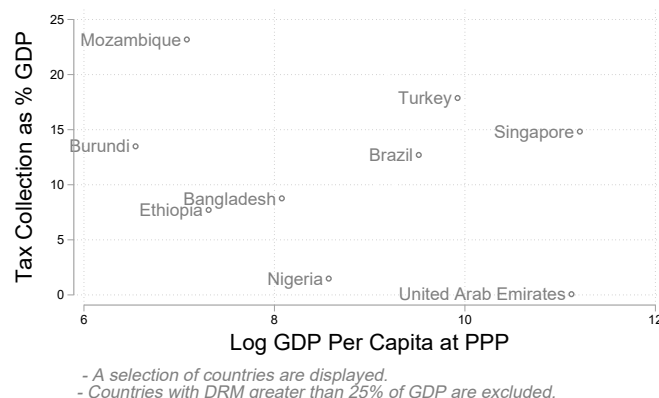

- Pink/light blue=1st tercile; orange/gray=2nd tercile; green/blue=3rd tercile

### Government Expenditure in the Social Sectors

### Domestic Resource Mobilization and GDP

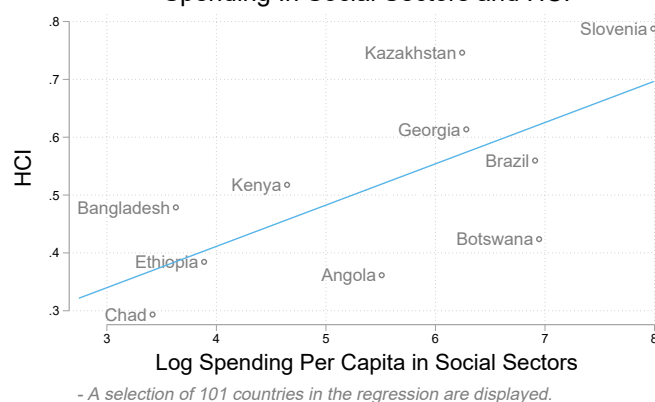

### OTHER RELEVANT INDICATORS

- **Efficiency of Spending.** Given the lack of data, it is not possible to predict if the HCI in the Central African Republic is higher or lower than what would be predicted for its level of per capita spending.

- **Human Capital Participation.** the Central African Republic is part of a network of countries committed to the Human Capital agenda.

### Spending In Social Sectors and HCI

- **Building Human Capital.** The Country Policy and Institutional Assessment rating for building human resources in the Central African Republic is **2.5** (1 is low and 6 is high). This is lower than both the regional average (3.5) and the average for its income group (3.5). This indicator assesses the national policies and public and private sector service delivery that affect access to and quality of health and education services.

- **Identification** In the Central African Republic, **28.2 percent** of the population does not have proof of identity. This is lower than both the regional average (33.8) and the average for its income group (34.6).

- **Statistical Data on Human Capital** In the Central African Republic, data on stunting rate and Harmonized Learning Outcomes are unavailable after year 2000.

- **Domestic Resource Mobilization.** In the Central African Republic, data on domestic resource mobilization do not exist. The average for the country's region is 16.1 percent and for its income group is 14.3 percent.

### HOW IS THE WORLD BANK SUPPORTING THE EFFORT?

The following table summarizes the World Bank's investments in Human Development for Ethiopia, including measures of volume, performance, and other relevant indicators.

World Bank Investments in HD				
Indicator	HD	Edu	HNP	SPJ
HD Portfolio				
USD (million)	68	25	43	0
Percentage of total	12	4	8	0
Diff. with perc. for regional average	-11	-2	-0	-9
Diff. with perc. for income group avg	-16	-3	-3	-9
HD FY 20 Lending Program				
USD (million)	0	0	0	0
Percentage of total	.	.	.	.
Diff. with perc. for regional average	.	.	.	.
Diff. with perc. for income group avg	.	.	.	.
HD Performance				
Average Development Outcome (DO)	4	4	4	.
Difference with DO for region	+0.46	+0.69	+0.43	.
Difference with DO for income group	+0.45	+0.66	+0.42	.
Perc. Satisfactory DO	100	100	100	.
Average Implementation Progress (IP)	4	4	4	.
Difference with IP for region	+0.68	+0.78	+0.65	.
Difference with IP for income group	+0.69	+0.77	+0.60	.
Perc. Satisfactory IP	100	.	100	100
Disbursement ratio (DR)	6	6	.	.
Difference with DR for region	-33	-23	.	.
Difference with DR for income group	-38	-24	.	.
Other indicators				
Average project size (PS) (USD mill.)	34	25	43	0
Difference with PS for region	-43	-33	-17	-88
Difference with PS for income group	-51	-33	-29	-94
Perc. of portfolio that is co-TTL'd (CTT)	63	0	100	.
Diff. with CTT for region (perc. points)	+36	-15	+69	.
Diff. with CTT income group (perc. points)	+33	-21	+65	.

Note: a) **Pink** indicates that the value is within the first tercile of the distribution for all the countries. **Orange** indicates that the value is within the second tercile. **Green** indicates that it is within the third tercile. b) FY20 lending program includes only projects rated A, B and unrated. c) DO and IP are on a scale of 1 to 5 where 1 is Unsatisfactory and 5 is Highly Satisfactory. d) Data as of July 15, 2019.

- **Human Capital Policy Operations.** Currently, the pipeline for the Central African Republic includes at least one Development Policy Operation with a Human Capital-related component or prior action.
- **Women's Empowerment Project.** Currently, the pipeline for the Central African Republic does not have an active project focused on women empowerment or on sexual and reproductive health.

This scorecard is intended to be a conversation starter on where a country is on various aspects of human capital development and the state of the World Bank's support in the social sectors. The list of indicators presented here is not exhaustive and should be complemented with more specific variables. Most of the indicators are related to the Africa Human Capital Plan.

The sources of data for the different indicators include: the Human Capital Project, the World Development Indicators, and the World Bank's internal system to monitor investments.
