

São Tomé and Príncipe

Illustrative Human Capital Indicators

This country profile presents a snapshot of illustrative indicators to guide discussions during the Annual Meetings while the set of more strategic indicators are under development. It is intended to be a conversation starter on where a country is on various aspects of human capital development and, as such, it includes indicators from various sectors. It is to be noted that not all the indicators included here are relevant for each country. Information contained here should be complemented with other more context-specific indicators.

In São Tomé and Príncipe there are not enough data to calculate the productivity as a future worker of a child born today. The HCI has three components: survival to age 5, health, and education. For more information on the HCI, please visit www.worldbank.org/humancapitalproject.

ILLUSTRATIVE OUTCOME AND OUTPUT INDICATORS

- **Women, Business and the Law Index.** This index measures gender equality in the law (how the economic decisions women make are affected by the law), with a larger value showing higher gender equality. In São Tomé and Príncipe, the value is **77** out of 100. This is higher than both the average for its region (70) and the average for its income group (69).
- **Adolescent Fertility Rate.** In São Tomé and Príncipe, there are **95 births** per 1,000 women ages 15-19. This is higher than the Africa Human Capital Target for 2023 (83).
- **Contraceptive Prevalence.** In São Tomé and Príncipe, **41 percent** of women ages 15-49 uses some form of contraceptive method. This is higher than the average for its region (32) but lower than the average for its income group (49).
- **Social Protection Coverage.** In São Tomé and Príncipe, data on the percentage of the population that is covered by social safety nets do not exist. The Africa Human Capital target for 2023 is 30 percent.
- **Open Defecation.** In São Tomé and Príncipe, **47 percent** of the population practices open defecation. This is higher than the Africa Human Capital Target for 2023 (15).
- **Hygiene.** In São Tomé and Príncipe, **41 percent** of the population has basic hygiene services (soap and water). This is higher than the average for its region (22) but lower than the average for its income group (53).
- **Source of Drinking Water.** In São Tomé and Príncipe, **84 percent** of the population has at least basic source of drinking water. This is higher than both the average for its region (66) and the average for its income group (83).
- **Cooking Fuel.** In São Tomé and Príncipe, **17 percent** of the population primarily uses clean cooking fuels. This is lower than both the average for its region (22) and the average for its income group (47).
- **Access to Electricity.** In São Tomé and Príncipe, **73 percent** of the population has access to electricity. This is higher than the average for its region (48) but lower than the average for its income group (82).
- **Road Traffic Deaths.** In São Tomé and Príncipe, for every 100,000 people **28 people** die due to road traffic injury. This is higher than both the average for its region (27) and the average for its income group (19).

1. Key Indicators on Human Capital

- Large circle=São Tomé and Príncipe ; small circles=other countries.
 - Vertical lines separate terciles of the distribution.
 - Colors indicate the terciles of the distribution across countries.

DOMESTIC RESOURCE USE AND MOBILIZATION

- **Health Spending.** São Tomé and Príncipe spends **2.4 percent** of its GDP on health. This is higher than both the regional average (2) and the average for its income group (2.4).
- **Education Spending.** São Tomé and Príncipe spends **5.1 percent** of its GDP on education. This is higher than both the regional average (4.2) and the average for its income group (4.9).
- **Social Assistance Spending.** São Tomé and Príncipe spends **0 percent** of its GDP on social assistance. This is lower than both the regional average (1.6) and the average for its income group (1.4).

2. Government Expenditure on the Social Sectors

- **Efficiency of Spending.** Given the lack of data, it is not possible to predict if the HCI in São Tomé and Príncipe is higher or lower than what would be predicted for its level of per capita government spending.

3. Spending on Social Sectors and HCI

- **Domestic Resource Mobilization.** In São Tomé and Príncipe, data on domestic resource mobilization do not exist. The average for the country's region is 15.7 percent and for its income group is 15.5 percent.

4. Domestic Resource Mobilization

OTHER RELEVANT INDICATORS

- **Human Capital Project.** São Tomé and Príncipe has signed up to be a member of the Human Capital Project.
- **Building Human Capital.** The Country Policy and Institutional Assessment rating for building human resources in São Tomé and Príncipe is **3.5** (1 is low and 6 is high). This is lower than both the regional average (3.5) and the average for its income group (3.6). This indicator assesses the national policies and public and private sector service delivery that affect access to and quality of health and education services.
- **Identification.** In São Tomé and Príncipe, **2.4 percent** of the population is not registered. This is lower than both the regional average (33.8) and the average for its income group (20.3).

This country profile is based on most recent data available under the Human Capital Project, the World Development Indicators, Atlas of Social Protection - Indicators of Resilience and Equity (ASPIRE) and Identification for Development (ID4D).
