

Bosnia and Herzegovina

Commitment to Human Capital - Scorecard

This scorecard presents a snapshot of the country's commitment to the human capital agenda and presents information on how the World Bank Group is supporting the government in the social sectors.

In Bosnia and Herzegovina the productivity as a future worker of a child born today is **62 percent** as much as it could be. The HCI has three components: survival to age 5, health, and education. For more information on human capital outcomes and the HCI, please see the country two-pager on www.worldbank.org/humancapitalproject

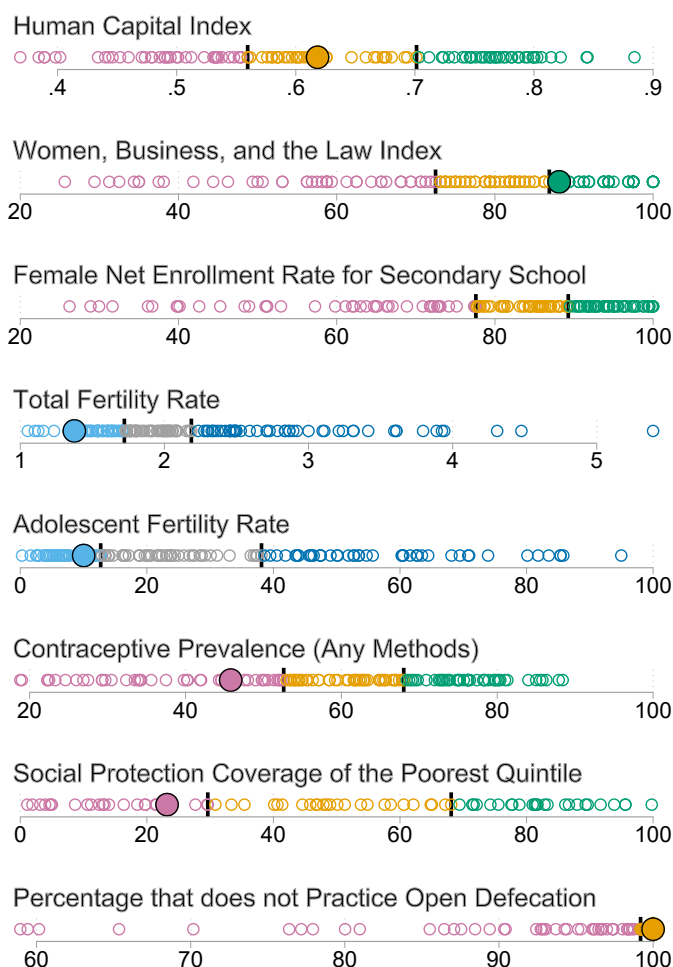

KEY OUTCOME AND OUTPUT INDICATORS TO MONITOR

- **Women, Business and the Law Index.** This index measures gender equality in the law (how the economic decisions women make are affected by the law), with a larger value showing higher gender equality. In Bosnia and Herzegovina, the value is **88** out of 100. This is lower than the average for its region (90) but higher than the average for its income group (76).
- **Net Enrolment Rate in Secondary School.** In Bosnia and Herzegovina, data on secondary net enrolment rates for girls do not exist. In its region **91** percent of girls of secondary-school age are enrolled in secondary school. The corresponding value for its income group is **91** percent.
- **Total Fertility Rate.** In Bosnia and Herzegovina, the total fertility rate is **1.4** births per woman. This is lower than both the average for its region (1.8) and the average for its income group (2.2).
- **Adolescent Fertility Rate.** In Bosnia and Herzegovina, there are **10** births per 1,000 women ages 15-19. This is lower than both the average for its region (16) and the average for its income group (43).
- **Contraceptive Prevalence.** In Bosnia and Herzegovina, **46 percent** of women ages 15-49 uses some form of contraceptive method. This is lower than both the average for its region (64) and the average for its income group (56).
- **Social Protection Coverage.** In Bosnia and Herzegovina, **58 percent** of the poorest quintile is covered by social safety nets. This is lower than the average for its region (67) but higher than the average for its income group (56).
- **Open Defecation.** In Bosnia and Herzegovina, **0 percent** of the population practices open defecation. This is lower than both the average for its region (0) and the average for its income group (3).

DOMESTIC RESOURCE USE AND MOBILIZATION

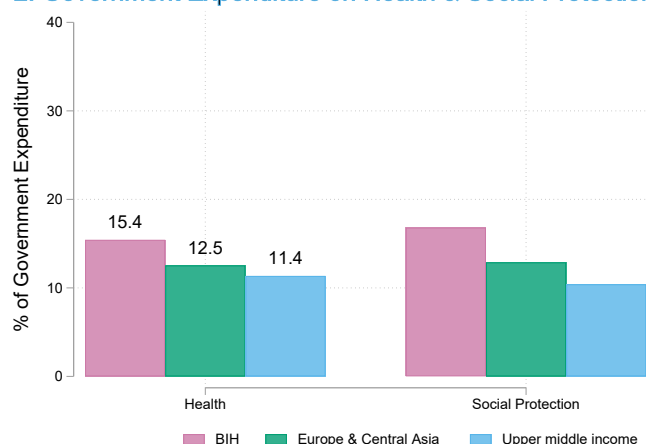

- **Health Spending.** Bosnia and Herzegovina spends **15.4 percent** of its government budget on health. This is higher than both the regional average (12.5) and the average for its income group (11.4).
- **Education Spending.** In Bosnia and Herzegovina, data on education spending do not exist. The average for the country's region is 12.2 percent and for its income group is 14.5 percent.
- **Social Protection Spending.** Bosnia and Herzegovina spends **16.8 percent** of its government budget on social protection. This is higher than both the regional average (12.9) and the average for its income group (10.4).

1. Key Indicators on Human Capital

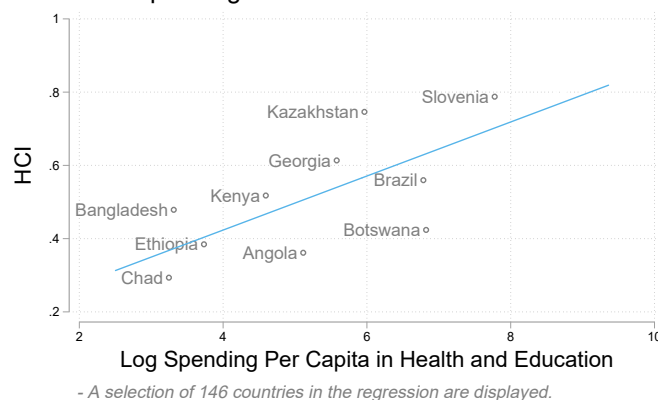

- Large circle=Bosnia and Herzegovina ; small circles=other countries.
 - Vertical lines separate terciles of the distribution.
 - Pink/light blue=1st tercile; orange/gray=2nd tercile; green/blue=3rd tercile

2. Government Expenditure on Health & Social Protection

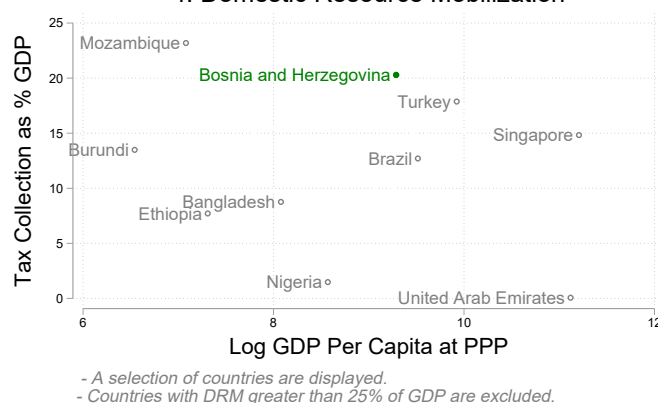

- **Efficiency of Spending.** Given the lack of data, it is not possible to predict if the HCI in Bosnia and Herzegovina is higher or lower than what would be predicted for its level of per capita government spending.

3. Spending on Health and Education and HCI

- **Domestic Resource Mobilization.** The tax revenue in Bosnia and Herzegovina is **20.3** percent of GDP. This is higher than both the regional average (19.6) and the average for its income group (17.5).

4. Domestic Resource Mobilization

- **Statistical Data on Human Capital.** In Bosnia and Herzegovina, the latest available data point on stunting rate is from 2012. Similarly, the latest available data point on Harmonized Learning Outcomes is from 2007.

HOW IS THE WORLD BANK SUPPORTING THE EFFORT?

The following table summarizes the World Bank's investments in Human Development for Bosnia and Herzegovina, including measures of volume, performance, and other relevant indicators.

World Bank Investments in HD				
Indicator	HD	Edu	HNP	SPJ
HD Portfolio				
USD (million)	56	0	0	56
% of total	14	0	0	14
Diff. from regional average %	+1	-4	-6	+11
Diff. from income group avg %	-1	-5	-6	+9
HD FY 20 Lending Program				
USD (million)	0	0	0	0
% of total	0	0	0	0
Diff. from regional average %	-25	-12	-4	-9
Diff. from income group avg %	-18	-6	-5	-6
HD Performance				
Average Development Outcome	5	.	.	5
Diff. from regional average %	+0.81	.	.	+0.57
Diff. from income group avg %	+0.67	.	.	+0.68
% Satisfactory DO	100	.	.	100
Average Implementation Progress	5	.	.	5
Diff. from regional average %	+0.89	.	.	+0.79
Diff. from income group avg %	+0.79	.	.	+0.77
% Satisfactory IP	100	.	.	100
Disbursement ratio	0	.	.	0
Diff. from regional average %	-3	.	.	-2
Diff. from income group avg %	-6	.	.	-1
Other indicators				
Average project size (USD mill.)	56	0	0	56
Diff. from regional average %	-27	-45	-79	+22
Diff. from income group avg %	-82	-71	-79	-37
% of portfolio that is co-TTLd	0	.	.	0
Diff. from regional average %	-15	.	.	-12
Diff. from income group avg %	-31	.	.	-46

Note: a) **Pink** indicates that the value is within the first tercile of the distribution for all the countries. **Orange** indicates that the value is within the second tercile. **Green** indicates that it is within the third tercile. b) FY20 lending program includes only projects rated A and B. c) DO and IP are on a scale of 1 to 6 where 1 is Highly Unsatisfactory and 6 is Highly Satisfactory. d) Data as of September 5, 2019.

OTHER RELEVANT INDICATORS

- **Human Capital Project.** Bosnia and Herzegovina is not part of a network of countries committed to the Human Capital agenda.
- **Building Human Capital.** The Country Policy and Institutional Assessment rating for building human resources in Bosnia and Herzegovina is **3.5** (1 is low and 6 is high). This is lower than both the regional average (3.8) and the average for its income group (3.8). This indicator assesses the national policies and public and private sector service delivery that affect access to and quality of health and education services.
- **Identification.** In Bosnia and Herzegovina, **.1 percent** of the population does not have proof of identity. This is lower than both the regional average (8) and the average for its income group (8.9).

This scorecard is intended to be a conversation starter on where a country is on various aspects of human capital development and the state of the World Bank's support in the social sectors. The choice of indicators is, to a large extent, driven by what is most relevant for the two regions with the lowest HCI scores (Sub-Saharan Africa and South Asia). As such, not all the indicators included here are relevant for each country. The scorecard should be complemented with other more context specific indicators.

The sources of data for the different indicators include: the Human Capital Project, the World Development Indicators, and the World Bank's internal system to monitor investments.
