

North Macedonia

Illustrative Human Capital Indicators

This country profile presents a snapshot of illustrative indicators to guide discussions during the Annual Meetings while the set of more strategic indicators are under development. It is intended to be a conversation starter on where a country is on various aspects of human capital development and, as such, it includes indicators from various sectors. It is to be noted that not all the indicators included here are relevant for each country. Information contained here should be complemented with other more context-specific indicators.

In North Macedonia the productivity as a future worker of a child born today is **53 percent** as much as it could be. The country ranks **88 out of 157** in the global HCI. For more information on human capital outcomes and the HCI, please see the country two-pager on www.worldbank.org/en/publication/human-capital.

ILLUSTRATIVE OUTCOME AND OUTPUT INDICATORS

- **Women, Business and the Law Index.** This index measures gender equality in the law (how the economic decisions women make are affected by the law), with a larger value showing higher gender equality. In North Macedonia, the value is **88** out of 100. This is lower than the average for its region (90) but higher than the average for its income group (76).
- **Adolescent Fertility Rate.** In North Macedonia, there are **16 births** per 1,000 women ages 15-19. This is lower than both the average for its region (16) and the average for its income group (45).
- **Contraceptive Prevalence.** In North Macedonia, **40 percent** of women ages 15-49 uses some form of contraceptive method. This is lower than both the average for its region (63) and the average for its income group (56).
- **Social Protection Coverage.** In North Macedonia, data on the percentage of the population that is covered by social safety nets do not exist. The average for the country's region is 50 percent and for its income group is 50 percent.
- **Open Defecation.** In North Macedonia, **1 percent** of the population practices open defecation. This is higher than the average for its region (0) but lower than the average for its income group (2).
- **Hygiene.** In North Macedonia, data on the percentage of the population that has basic hygiene services (soap and water) do not exist. The average for the country's region is 91 percent and for its income group is 78 percent.
- **Source of Drinking Water.** In North Macedonia, **93 percent** of the population has at least basic source of drinking water. This is lower than both the average for its region (98) and the average for its income group (95).
- **Cooking Fuel.** In North Macedonia, **66 percent** of the population primarily uses clean cooking fuels. This is lower than both the average for its region (94) and the average for its income group (81).
- **Access to Electricity.** In North Macedonia, **100 percent** of the population has access to electricity. This is similar to the average for its region (100) but higher than the average for its income group (96).
- **Road Traffic Deaths.** In North Macedonia, for every 100,000 people **6 people** die due to road traffic injury. This is lower than both the average for its region (8) and the average for its income group (17).

1. Key Indicators on Human Capital

- Large circle=Macedonia, FYR ; small circles=other countries.
 - Vertical lines separate terciles of the distribution.
 - Colors indicate the terciles of the distribution across countries.

DOMESTIC RESOURCE USE AND MOBILIZATION

- **Health Spending.** North Macedonia spends **4 percent** of its GDP on health. This is lower than both the regional average (5.1) and the average for its income group (4.1).
- **Education Spending.** In North Macedonia, data on education spending do not exist. The average for the country's region is 4.7 percent and for its income group is 4.8 percent.
- **Social Assistance Spending.** North Macedonia spends **1.2 percent** of its GDP on social assistance. This is lower than both the regional average (2.2) and the average for its income group (1.7).

2. Government Expenditure on Health & Social Assistance

- **Efficiency of Spending.** Given the lack of data, it is not possible to predict if the HCI in North Macedonia is higher or lower than what would be predicted for its level of per capita government spending.

3. Spending on Health and Education and HCI

- **Domestic Resource Mobilization.** The tax revenue in North Macedonia is **17.2 percent** of GDP. This is lower than the average for its region (19.6) but higher than the average for its income group (16.8).

4. Domestic Resource Mobilization

OTHER RELEVANT INDICATORS

- **Human Capital Project.** North Macedonia has not yet signed up to be a member of the Human Capital Project.
- **Building Human Capital.** In North Macedonia, data on the Country Policy and Institutional Assessment rating for building human resources do not exist. The average for the country's region is 3.8 percent and for its income group is 3.8 percent. This indicator assesses the national policies and public and private sector service delivery that affect access to and quality of health and education services.
- **Identification.** In North Macedonia, **.2 percent** of the population is not registered. This is lower than both the regional average (8) and the average for its income group (8.9).

This country profile is based on most recent data available under the Human Capital Project, the World Development Indicators, Atlas of Social Protection - Indicators of Resilience and Equity (ASPIRE) and Identification for Development (ID4D).
