

# Guinea-Bissau

## Illustrative Human Capital Indicators

This country profile presents a snapshot of illustrative indicators to guide discussions during the Annual Meetings while the set of more strategic indicators are under development. It is intended to be a conversation starter on where a country is on various aspects of human capital development and, as such, it includes indicators from various sectors. It is to be noted that not all the indicators included here are relevant for each country. Information contained here should be complemented with other more context-specific indicators.

In Guinea-Bissau there are not enough data to calculate the productivity as a future worker of a child born today. The HCI has three components: survival to age 5, health, and education. For more information on the HCI, please visit [www.worldbank.org/humancapitalproject](http://www.worldbank.org/humancapitalproject).

### ILLUSTRATIVE OUTCOME AND OUTPUT INDICATORS

- **Women, Business and the Law Index.** This index measures gender equality in the law (how the economic decisions women make are affected by the law), with a larger value showing higher gender equality. In Guinea-Bissau, the value is **36** out of 100. This is lower than both the average for its region (70) and the average for its income group (68).
- **Adolescent Fertility Rate.** In Guinea-Bissau, there are **105 births** per 1,000 women ages 15-19. This is higher than the Africa Human Capital Target for 2023 (83).
- **Contraceptive Prevalence.** In Guinea-Bissau, **16 percent** of women ages 15-49 uses some form of contraceptive method. This is lower than both the average for its region (32) and the average for its income group (29).
- **Social Protection Coverage.** In Guinea-Bissau, data on the percentage of the population that is covered by social safety nets do not exist. The Africa Human Capital target for 2023 is 30 percent.
- **Open Defecation.** In Guinea-Bissau, **17 percent** of the population practices open defecation. This is higher than the Africa Human Capital Target for 2023 (15).
- **Hygiene.** In Guinea-Bissau, **6 percent** of the population has basic hygiene services (soap and water). This is lower than both the average for its region (22) and the average for its income group (19).
- **Source of Drinking Water.** In Guinea-Bissau, **67 percent** of the population has at least basic source of drinking water. This is higher than both the average for its region (66) and the average for its income group (62).
- **Cooking Fuel.** In Guinea-Bissau, **2 percent** of the population primarily uses clean cooking fuels. This is lower than both the average for its region (22) and the average for its income group (7).
- **Access to Electricity.** In Guinea-Bissau, **26 percent** of the population has access to electricity. This is lower than both the average for its region (48) and the average for its income group (38).
- **Road Traffic Deaths.** In Guinea-Bissau, for every 100,000 people **31 people** die due to road traffic injury. This is higher than both the average for its region (27) and the average for its income group (28).

## 1. Key Indicators on Human Capital

- Large circle=Guinea-Bissau ; small circles=other countries.  
 - Vertical lines separate terciles of the distribution.  
 - Colors indicate the terciles of the distribution across countries.

## DOMESTIC RESOURCE USE AND MOBILIZATION

- **Health Spending.** Guinea-Bissau spends **2.7 percent** of its GDP on health. This is higher than both the regional average (2) and the average for its income group (1.6).
- **Education Spending.** Guinea-Bissau spends **2.1 percent** of its GDP on education. This is lower than both the regional average (4.2) and the average for its income group (3.8).
- **Social Assistance Spending.** Guinea-Bissau spends **0 percent** of its GDP on social assistance. This is lower than both the regional average (1.6) and the average for its income group (1.5).

## 2. Government Expenditure on the Social Sectors

- **Efficiency of Spending.** Given the lack of data, it is not possible to predict if the HCI in Guinea-Bissau is higher or lower than what would be predicted for its level of per capita government spending.

## 3. Spending on Social Sectors and HCI

- **Domestic Resource Mobilization.** The tax revenue in Guinea-Bissau is **10.3 percent** of GDP. This is lower than both the regional average (15.7) and the average for its income group (13.5).

## 4. Domestic Resource Mobilization

## OTHER RELEVANT INDICATORS

- **Human Capital Project.** Guinea-Bissau has not yet signed up to be a member of the Human Capital Project.
- **Building Human Capital.** The Country Policy and Institutional Assessment rating for building human resources in Guinea-Bissau is **2.5** (1 is low and 6 is high). This is lower than both the regional average (3.5) and the average for its income group (3.5). This indicator assesses the national policies and public and private sector service delivery that affect access to and quality of health and education services.
- **Identification.** In Guinea-Bissau, **48 percent** of the population is not registered. This is higher than both the regional average (33.8) and the average for its income group (34.6).

This country profile is based on most recent data available under the Human Capital Project, the World Development Indicators, Atlas of Social Protection - Indicators of Resilience and Equity (ASPIRE) and Identification for Development (ID4D).
